

SmoothPavements.com Provides all State DOT Smoothness Specs Online

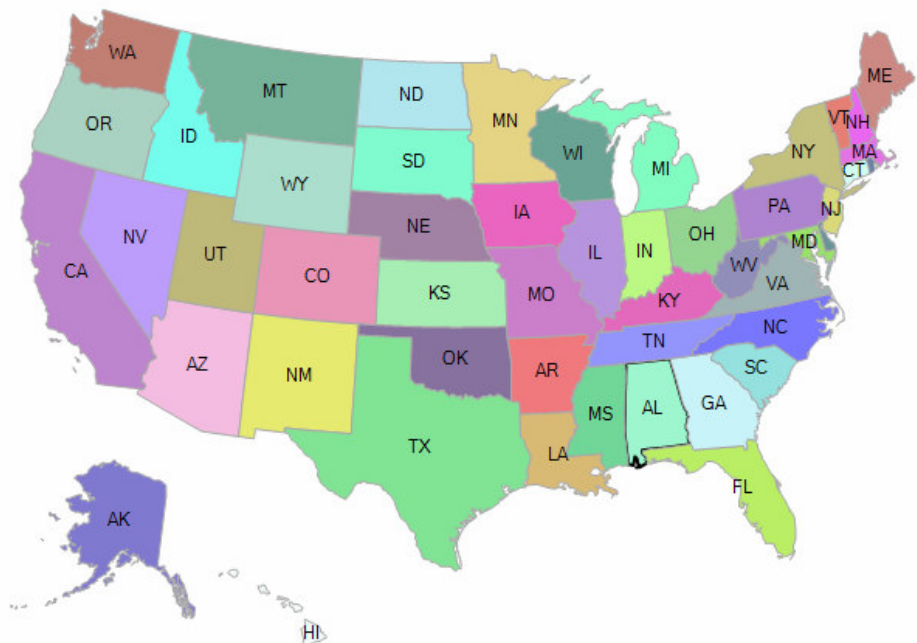

With the launch of SmoothPavements.com, The Transtec Group provides transportation agencies, contractors, and the paving industry with a single source of information on pavement smoothness specifications in the U.S.

On the SmoothPavements.com web site, you can:

- .. Understand why pavement smoothness specifications are important
- .. Stay up to date with national trends in smoothness specifications
- .. Learn more about AASHTO Specifications for ride quality
- .. Discover which smoothness testing devices are specified by state highway agencies
- .. Gain a better understanding of pavement smoothness terminology
- .. Learn how FHWA's ProVAL software can help you with pavement smoothness specifications and profile analysis

[Visit SmoothPavements.com for the most updated smoothness specifications.](http://SmoothPavements.com)

“P_rI to IRI – it’s all about the ride. SmoothPavements.com is straight forward and easy to understand.” - Terry Treutel, Wisconsin Department of Transportation
